**Subject:** Link to Doodle Poll for next data meeting - please respond ASAP

Good day,

Please indicate your availability to meet to review and develop contraceptive measures and access to care measures that compare IFPN to the State Family Planning Program.

Here is the link: [Doodle poll - set up next meeting](#)

We need to have a product ready for the 2018 Legislative Session that begins in early January 2018.

Please forward this email to anyone I might have missed.

Thank-you,  
Debbie.

## Family Planning Program Data Work Group

# **Family Planning Program (FPP) Workgroup Charter**

**Name of Workgroup:** FPP Performance Measures (internal & external)

**Purpose:** Develop, monitor, analyze and submit requested or required data reports regarding the efficiency and effectiveness of FPP.

## **Expected Products of the Workgroup:**

1. Identify current baseline measures for which the State has data and will be able to compare post FPP implementation (comparing apples to apples).

### **Considerations:**

- Use of performance measures used to report IFPN deliverables

2. Identify descriptors and consistency in data gathered across system
3. Analyze data collected and develop a data driven story (IFPN transition to FPP)
4. Develop, approve and finalize public facing documents (e.g. high level notes, charter, data metrics)
5. Develop future reports that are required

**Expected Time Frame of the Workgroup:** October 2017-October 2018

## **Workgroup Members:**

<b>Group Members</b>	<b>Job Title</b>	<b>Represents</b>
Wendy Rickman	ACFS, Division Administrator	DHS
Julie Lovelady	IME, Deputy Medicaid Director	DHS
Deb Johnson	IME, Bureau Chief	DHS
Matt Highland		DHS
Julie Allison	ACFS, Bureau Chief	DHS
Amela Alibasic	ACFS, Program Lead	DHS
Kelly Lindsay	ACFS, Program Manager	DHS
TBD		DHS data expert
Jodi Tomlonovic		
TBD		Iowa Family Council Data expert
Denise Wheeler	IDPH,	
Debbie Kane		IDPH data expert
TBD		Iowa Right to Life
TBD		Iowa Right to Life data expert

Hi Debbie,

Attached is an agenda for the data workgroup. We won't need an agenda going forward since it is a workgroup and we will have defined the scope on 10/27. If you could please send this out since I think you sent the meeting invite that would be great.

The agenda items you outlined in your draft are conversations down the road to be discussed with the larger workgroup. Give me a call if you want to discuss this further.

Thanks for organizing this,

Julie

**Attachments:** Family Planning Data Meeting DRAFT agenda (10.23.17).docx

Good day,

Here you go...feel free to place on your letter head, re-order items, and the like.

Do you want me to send out the final agenda or does it make more sense for you to send it out?

Two questions 1) if there a call in number we can use - Denise Wheeler may call in 2) will there be a projector to link up to show slides?

Thanks,  
Debbie

Hi Wendy,

Sounds like there are multiple issues at play here.

Summary - IDPH receives claim data once a year which is outlined in a current Data Sharing Agreement between DHS and IDPH. Per the FPP project, MMIS was in process of developing a data dashboard to show data in regard to contraceptive measures and other categories. In speaking with Harish on this topic, he believes this is still in development. For what Debbie needs going forward, we believe this project could be tweaked to accommodate the need being expressed.

Debbie Kane is putting a work group together and I have asked that George Signs and Matt Briggs to be involved in this conversation. I have also tagged those two in to help Connie with the MOU and Interface Agreement.

There is another issue on whether our FPP data needs to be reported to CMS going forward.

Thanks.

a little help?

Whatever DPH gets today for the Medicaid family planning waiver will continue just under the STATE FPP program. I have no idea what the files are or if those specifics are included in the current MOU

## Family Planning Program (FPP) Workgroup Notes

October 13, 2017 (8:30-10:30 a.m.)

Workgroup members: Wendy Rickman, Amela Alibasic, Kelly Lindsay, Julie Allison, Deb Johnson, Matt Highland, Julie Lovelady, Jodi Tomlonovic, Denise Wheeler, Debbie Kane, Iowa Right to Life- to be determined

### SUMMARY

#### Membership:

- Discussion of membership and the intentional invite to external workgroup members. It was noted that invites to all "providers" would not be manageable thus the invite to representatives from Iowa Right to Life, Family Planning Council and Iowa Department of Public Health. All invited entities had a "voice" during the legislative session.
- The workgroup is not considered a public meeting.
- Each identified member will, if they choose, bring a data expert.
- DHS has reached out to Iowa Right to Life and will continue to seek a representative from this group.
- Political viewpoints are not expected to interfere with choosing objective performance measures. Performance measures are intended to measure the impact of moving from a federal waiver program to a state-funded program that includes HF653 law changes.

#### Purpose:

- The purpose of the group and its goals were discussed. The group acknowledged the need to have a specific charter outlining the goal of the group, scope and expectations. DHS will draft a charter and get feedback from the workgroup.

#### Communication:

- A formal communication structure that informs work products and provides a mechanism for external stakeholders to provide input to the workgroup was discussed. A formal communication structure will be developed. The communication structure will include a feedback loop for stakeholders so that the workgroup can make informed decisions and consider all points of view.

**Data Metrics:**

- Importance of measuring IFPN metrics with FPP metrics going forward was identified as a key goal. For example, the Department of Human Services has been reporting federal data indicators such as number of enrolled members, number of providers, etc.
- DHS provided a high level review of potential data indicators.
- Family Planning Council provided data indicators they would like to explore.
- IDPH will report data at the next meeting due to time constraints.
- Group discussed the need to develop a data dictionary so stakeholders understand the methodology behind the data.
- Group discussed the importance of data experts meeting and assessing data pull consistency.

**Next Steps:**

- Next workgroup scheduled for October 27, 2017.
- Draft workgroup charter.
- Draft communication structure.
- Data experts will meet. IDPH will take the lead to organize.

# **FPP Workgroup Charter**

**Name of Workgroup:** FPP Performance Measures (internal & external)

**Goal of Workgroup:** Identify and prioritize key performance measures and reports which will communicate (internally and externally) the effectiveness of the FPP system.

## **Expected Products of the Workgroup:**

1. Identify current baseline measures for which the State has data and will be able to compare post FPP implementation (comparing apples to apples).

Considerations:

- Use of performance measures used to report IFPN deliverables
- 

2. Identify descriptors and consistency in data gathered across system
3. Analyze data collected and develop a data driven story (IFPN transition to FPP)
4. Develop, approve and finalize public facing documents (e.g. high level notes, charter, data metrics)
5. Develop future reports that are required
- 6.

**Expected Time Frame of the Workgroup:** October 2017-October 2018

## **Workgroup Members:**

<b>Group Members</b>	<b>Job Title</b>	<b>Represents</b>
Wendy Rickman		

## **Highland, Matt**

**From:** Johnson, Deborah <djohnso6@dhs.state.ia.us>  
**Sent:** Friday, October 13, 2017 10:08 AM  
**To:** Wendy Rickman; Julie A. Allison; Julie Lovelady; Highland, Matt; Amela Alibasic; Kelly Lindsay  
**Subject:** Notes from FFP workgoup 10/13/17

- My notes from todays meeting.
- Draft a charter of the FPP data workgroup.(Matt HIghland/Julie Allison)
- Jodi T will be representing Planned Parenthood and will provide the opportunity for PP to have input on the charter
- Slide re accessing services (page 5) are the services duplicated or unduplicated-Believe this should be duplicated as people may access more than one service.
- Unique providers-how do we define-is this a health care system or individual providers-need to identify.
- Paid claims-would this be helpful to split out what the claims paid-could hover over with the breakout. Basically what did you pay for
- Independent labs-does this include the hospitals that have labs? Need to clarify.
- Paid claims vs those that were denied (filed and paid plus denied)-should there also be claims submitted. Concerned about the denials through MCO's.
- 2016 is a "funky" year need to make sure that this is identified that the data may overlap, etc. What is the best measure, are the claims increased in SFY 16 Q4 because there are so many denied claims.
- Make sure explanation in each slide to understand what was pulled. Data Dictionary-could include the CPT code
- Office Visits-anything that is included under the waiver.
- No billing codes for all contraceptives-how should this be reflected. roll into the presentation of the data
- What methods are provided by what provider-contraceptives. LARC -clinics had these on site and they were provided on site (billed on the 1500). Those providers who are excluded were providing 340B prices, not pharmacy prices. With MCOs they aren't providing the dispensing fees. Pharmacy costs could go up due to providing pills instead of LARCs.
- May see unintended pregnancy increase due to the lack of access to LARCS? Some of the other methods (Pills, etc) aren't as consistent.
- Legislators may see lower costs as a success but in fact it could be that there are more pregnancies - what is the long term effect

Family Planning Council of Iowa-Jody T

Members:

- Add number of new enrolless since July 1, 2017
- Number of renewed enrollees since July 1, 2017
- Break out the new and renewed enrollees by county
- Compare numbers to the same time period in FY 2017 and FY 2016

Services

- Number of members who received service since July 1, 2017
- Break out by county

- Compare numbers to the same time period in FY 2017 and FY 2016
  - Break out contraceptives by provider type-(primary care, ob-gyn, etc.)
- Level of STD testing screening was provided to the member since July 1, 2017
  - Break out contraceptives by provider type-(primary care, ob-gyn, etc.)
- Number of sterilizations since July 1, 2017-added due to the exclusions of providers.
- Number of colposcopies since July 1, 2017
- Break out Sterilizations and colposcopies by county
  - Compare to the same time period in FY 2017 and FY 2016

## Providers

- Number of unduplicated members served by each provider (identify provider type)
- Number of claims submitted by each provider (identify provider type)
- Compare data to the same time period in FY 2017 and FY 2016
- FPP listing -some providers are on the listing several times really -really need to look at the data from the provider perspective to clean this up to make sure numbers are accurate.
- The listing doesn't list out what kind of services each provider offers.

## Next agenda items

- Review IDPH data points.
- Meet on Fridays during regularly scheduled DHS meeting -Meet on 10/27 with workgroup
- Put together a charter-review
- Data people need to talk some of this through to see what can and cannot be utilized. Need to make sure that the understand what the file is stating. (between now and the next meeting, including IME, IDPH and FPC of Iowa) Deb Kane will coordinate-IME/FPC of Iowa need to let Deb know who the data people are to coordinate.
- Julie/Wendy reaching out to Right to Life.

## ***Family Planning Program***

*Previously Iowa Family Planning Waiver*

October 2017

## **Report Summary: Family Planning Program**

### **Background**

The Family Planning Program (FPP) is for men and women who are 12-54 years of age. The FPP helps with the cost of family planning related services. The FPP is a state-funded DHS program which replaced the Iowa Family Planning Network (IFPN) program. Eligibility and covered benefits did not change. The location where members receive services may have changed. As of July 1, 2017, eligible IFPN members transitioned to the FPP. This program allows men and women to get family planning services only. This program is a form of limited insurance coverage. It does not meet the Affordable Care Act requirements for a minimum essential benefits plan.

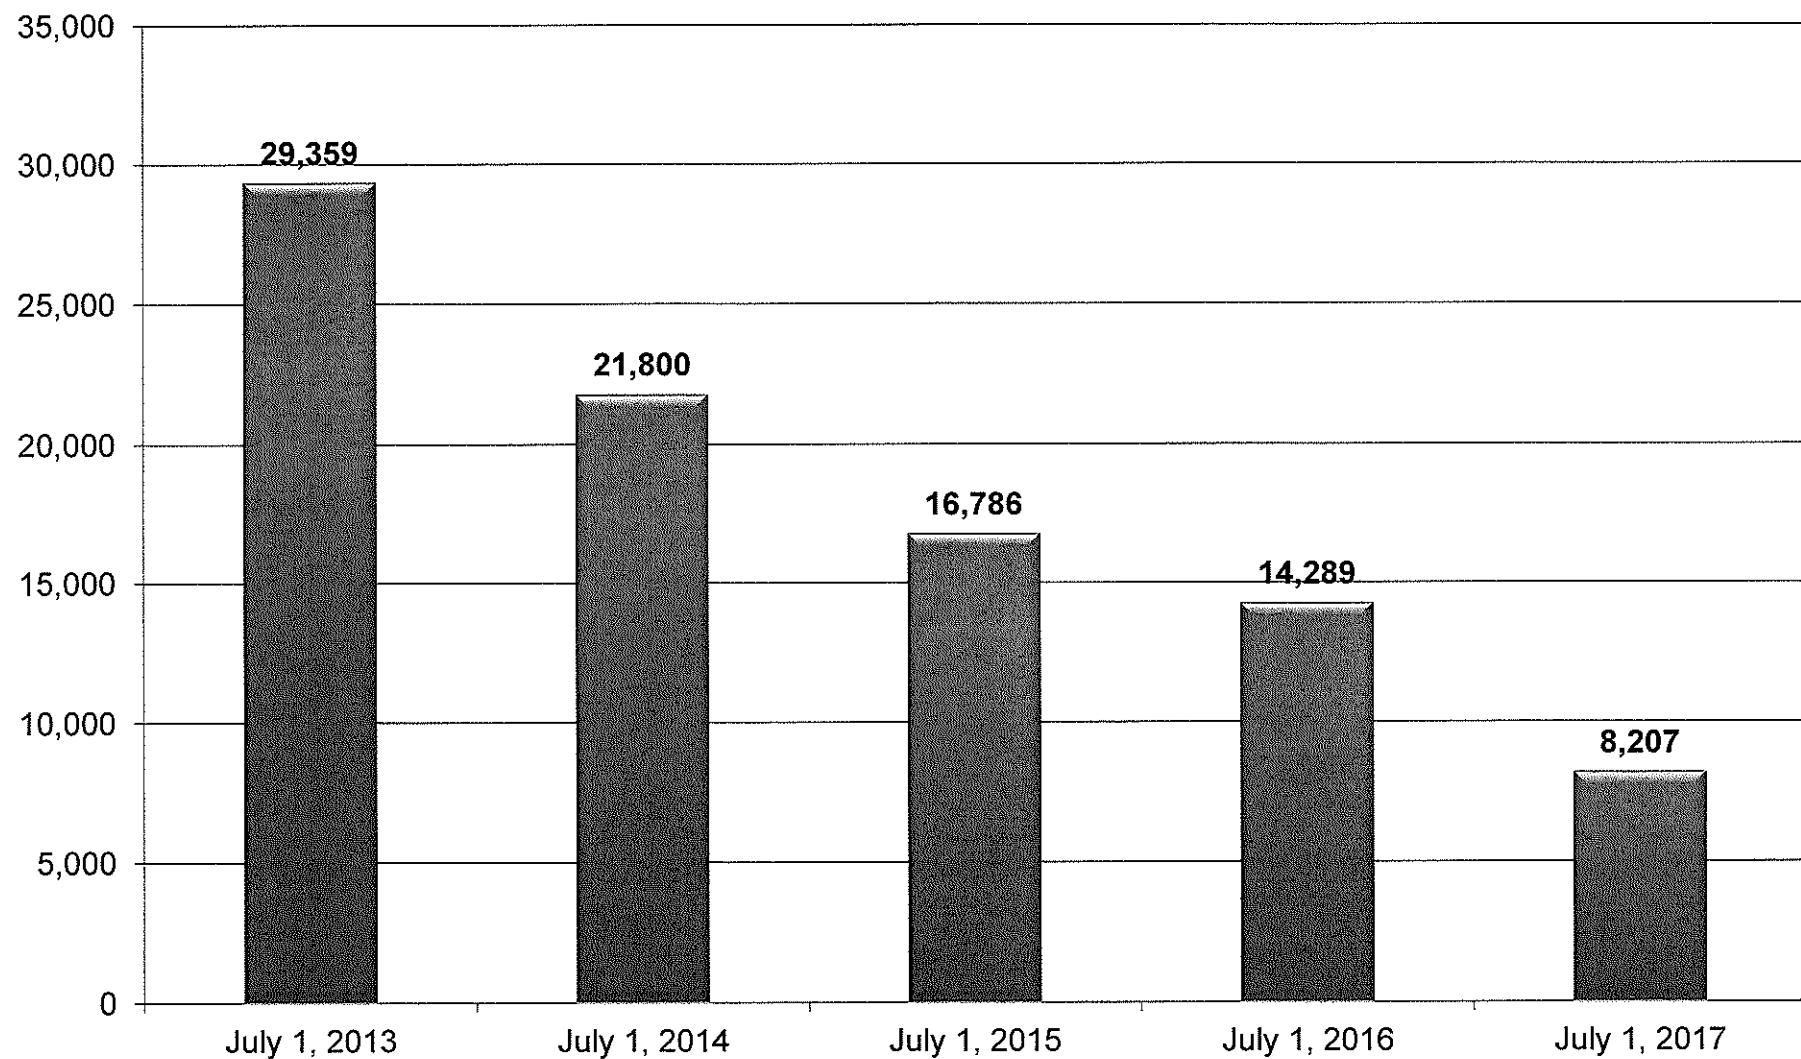

### **Data Limitations/Considerations**

The FPP and IFPN are programs with limited benefits and declining enrollment due to increased health care coverage, as FPP and IFPN do not meet the Affordable Care Act (ACA) definition of 'minimal essential coverage.'

It is important to note that data is collected in a variety of systems, including eligibility and claims systems. With the recent transition to managed care and the transition from IFPN to the FPP, data may not have been collected in the exact same way, due to differences in claims processing, etc. A work group was assembled to ensure we're accounting for these changes and how they impact the data.

Claims data from SFY16 Q4 identifies a spike in services provided and providers participating. It appears the Managed Care Organizations (MCOs) were paying for non-covered services for IFPN members during this quarter, which was the first quarter of the IA Health Link managed care program.

## Number of Enrolled Members

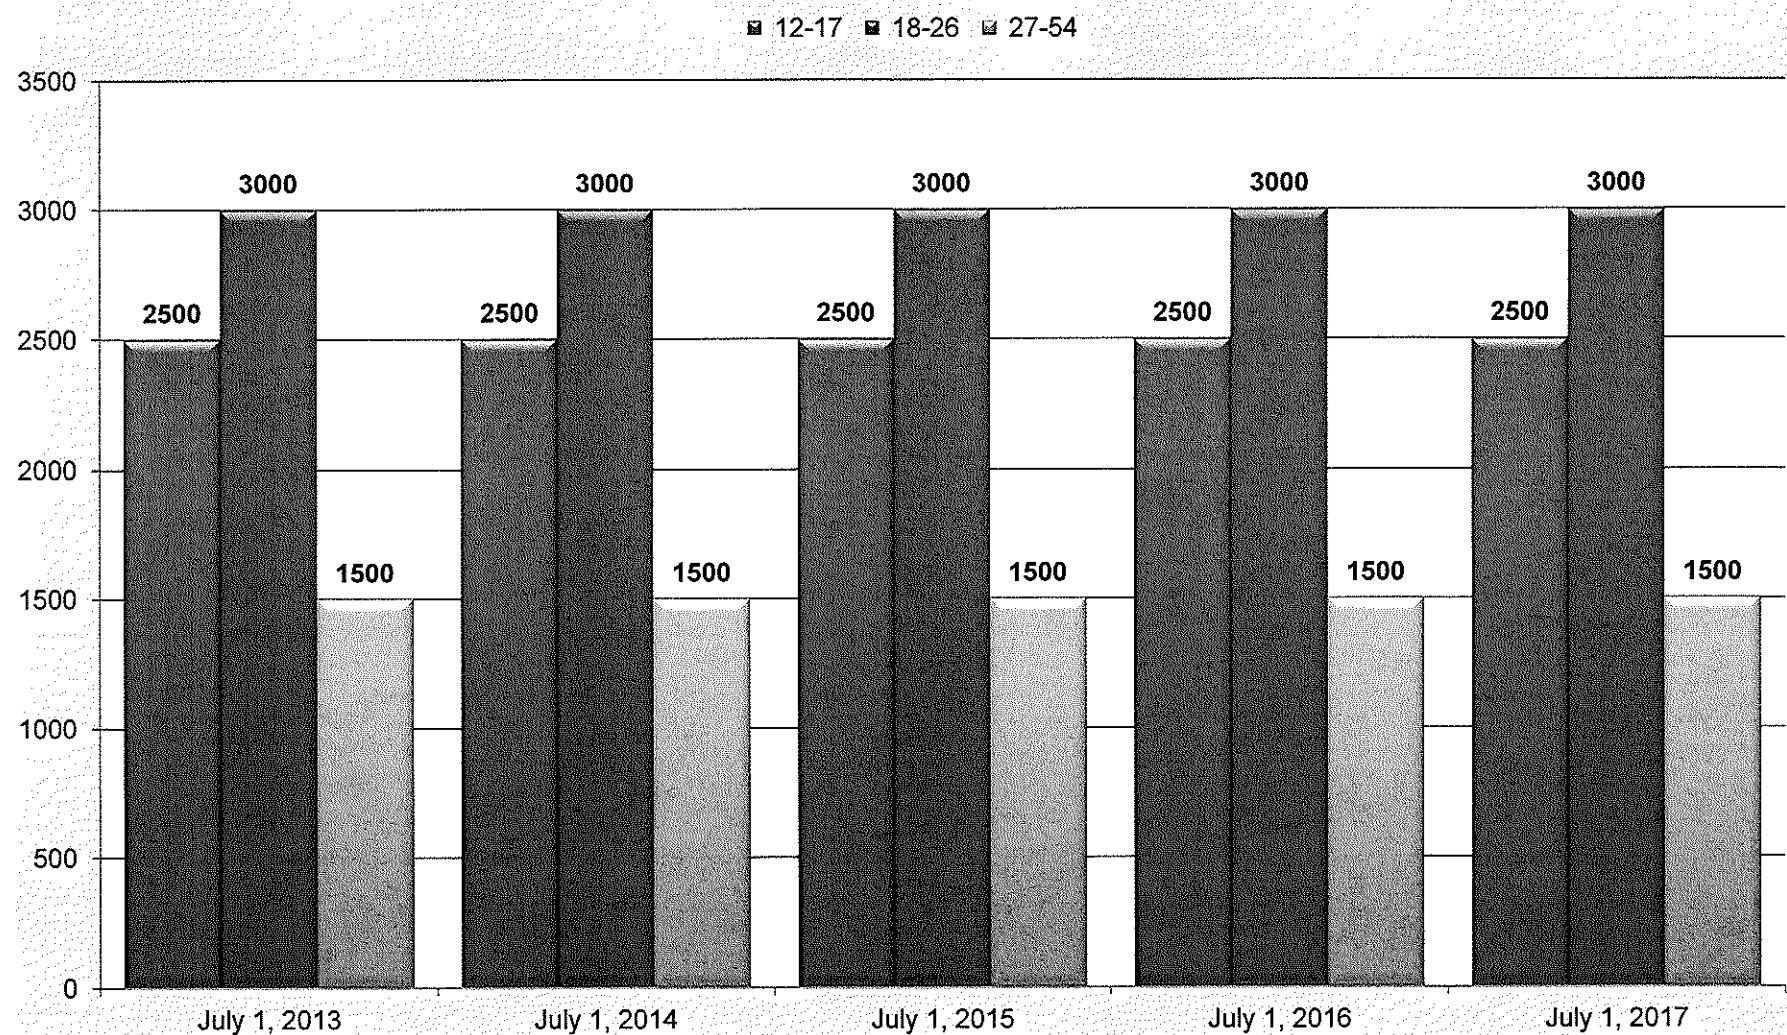

*Unduplicated Enrolled Members' Numbers*

Hello,

Attached please find the termination letter and termination application for the Iowa Family Planning Network (IFPN) §1115 Demonstration Waiver.

We expect to submit the 2016 IFPN Annual Evaluation report to CMS by the end of November. The 2017 IFPN Annual Evaluation report will be submitted upon completion.

We appreciate all of the assistance provided by CMS staff contributing to the success of the IFPN program.

Thank you,

Good evening,

I have been going over CMS' internal close-out documentation requirements and realized that for the official administrative record, CMS will need a letter from the state indicating it terminated the 1115 program effective 6/30/17. We also need this letter documenting the actual termination date so that CMS has the appropriate date to determine how long we keep this 1115 "active" in our expenditure system as states are allowed 2 years from the close of the last active quarter to submit claims that may come in later. Thank you.

**Section 1115 Demonstration Termination**

**Iowa Family Planning Network  
Project #11 -W-00 188/7**

**State of Iowa  
Department of Human Services**

**October, 2017**

## **Section I – Executive Summary**

On January 10, 2006, Iowa received approval for the §1115 Family Planning Demonstration Waiver (Project #11 -W-00 188/7) from the Centers for Medicare and Medicaid Services (CMS). On February 1, 2006, Iowa implemented the Iowa Family Planning Network (IFPN) program to provide access to family planning and family planning related services.

Most recently, the IFPN program provided family planning services to men and women, under the age of 55, who are not otherwise enrolled in Medicaid and have countable income of no more than 300 percent of the Federal Poverty Level (FPL). Women losing Medicaid pregnancy coverage at the conclusion of the 60-day postpartum period were systematically enrolled in the IFPN program.

Annual reports of the demonstration, completed by the University of Iowa Public Policy Center, have confirmed the success of the Iowa Family Planning Program. Recent reports show more than 80,000 women have accessed family planning services through the IFPN waiver demonstration and repeat birth rates for women accessing IFPN services have dropped for most age groups. The largest decrease was among teens. Additionally, conservative estimates of net Medicaid savings are over \$265 million from this demonstration.

## **Section II – History**

In May 2004, legislation under Iowa Senate File 2298 was passed, requiring the department to request a waiver from CMS that allowed a guaranteed 12 month period of eligibility for family planning services to women who received Medicaid when a pregnancy ended as well as women who are at least 13 years of age but less than 45 years of age with income at or below 200 percent of the FPL.

In January 2006, CMS approved Iowa's initial request for the Iowa Family Planning Demonstration Waiver for a period of 5 years. In February 2006, Iowa implemented the IFPN program. The program provided coverage to women, aged 12-44, who are not otherwise enrolled in Medicaid (other than IowaCare), State Children's Health Insurance Program (SCHIP) or other coverage that includes family planning services. These women must also have countable income at or below 200 percent of the FPL or have lost Medicaid pregnancy coverage within the last year, at the conclusion of their 60-day postpartum period.

In 2010, legislation under Iowa House File 2526 was passed, requiring the department to renew the demonstration waiver and expand eligibility criteria for the IFPN program. The expanded criteria included coverage for men, increasing the age limit to 54, increasing the income limit to 300 percent FPL, and allowing coverage for individuals that are uninsured or have health insurance coverage that does not include coverage for benefits provided under IFPN. After receiving CMS approval, these changes along with a 3 year renewal of the IFPN demonstration waiver, were implemented effective December 29, 2011. In 2011, as part of the renewal process, the department received several short-term, temporary extensions to continue operating the IFPN program while the extension renewal waiver was considered.

Beginning January 1, 2014, the IFPN demonstration waiver was extended an additional 3 years. The program continued to provide family planning and family planning-related services to individuals (men and women) aged 12 through 54, who are not otherwise enrolled in Medicaid and have family income at or below 300 percent FPL. Women losing Medicaid pregnancy coverage at the conclusion of 60 days postpartum continued to be systematically enrolled in IFPN.

Most recently, beginning January 1, 2017, the IFPN demonstration waiver was renewed for an additional 3 years following the same eligibility criteria from the 2014 renewal.

### **Section III – Termination**

In May 2017, legislation under Iowa House File 653 was passed, mandating the Department of Human Services to discontinue the Medicaid Family Planning Network Waiver effective July 1, 2017 and establish a state family planning services program. The legislation required the state family planning services program replicate the eligibility requirements and other provisions of the IFPN program.

On July 1, 2017, the department implemented the state Family Planning Program (FPP). This program provides family planning and family planning-related services to individuals (men and women) aged 12 through 54, who are not otherwise enrolled in Medicaid and have family income at or below 300 percent FPL. Women losing Medicaid pregnancy coverage at the conclusion of 60 days postpartum are systematically enrolled in the FPP.

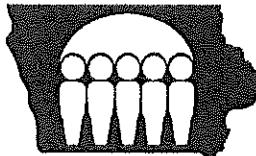

The department is not receiving federal financial participation for expenditures under this program. State legislation also requires the distribution of FPP funds are not made to any entity that performs abortions or that maintains or operates a facility where abortions are performed.

#### **Section IV – Transition and Phase Out**

All individuals enrolled in IFPN as of June 30, 2017 were systematically and seamlessly enrolled in the FPP. Each member received a Notice of Decision (NOD) explaining the program transition, including a web address to access the list of participating providers, and proof of coverage for FPP. Each NOD also included member appeal rights. Eligibility determinations for FPP began with applications received on or after July 1, 2017.

Forms, including applications and notices of decision, as well as provider communications, have been revised applicable to the Family Planning Program.

Informational letters were published by the Iowa Medicaid Enterprise (IME), giving instruction on provider enrollment and billing processes.

Re: Iowa Family Planning Network §1115 Demonstration Waiver Termination (Project #11-W-00188/7)

Dear Ms. Moore:

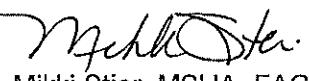

Please find the attached termination application for the Iowa Family Planning Network §1115 Demonstration Waiver.

The Iowa Family Planning Network Demonstration was implemented on February 1, 2006 to provide limited Medicaid coverage for family planning services.

In May 2017, state legislation passed mandating the Iowa Department of Human Services to discontinue the Iowa Family Planning Network program effective July 1, 2017, and establish a state family planning services program. On July 1, 2017, the department implemented the Iowa Family Planning Program. All members receiving Iowa Family Planning Network were transitioned to the Iowa Family Planning Program. Because the Iowa Family Planning Network program has been discontinued, the State is seeking to terminate the Demonstration Waiver.

We are appreciative of the guidance and assistance provided through phone conversations on February 22, March 13, and September 6, 2017 from the Centers for Medicare and Medicaid Services staff regarding the program transition and close-out activities. In addition, we appreciate all who have contributed to the success of the Iowa Family Planning Network Program.

Sincerely,

  
Mikki Stier, MSHA, FACHE  
Medicaid Director

MS/kl

Good evening,

I have been going over CMS' internal close-out documentation requirements and realized that for the official administrative record, CMS will need a letter from the state indicating it terminated the 1115 program effective 6/30/17. We also need this letter documenting the actual termination date so that CMS has the appropriate date to determine how long we keep this 1115 "active" in our expenditure system as states are allowed 2 years from the close of the last active quarter to submit claims that may come in later. Thank you.

See Kelly's choices for submission. I vote for giving them the termination letter now and then sending the rest of the documents to them beginning of November (except the 2017 annual report as good chance we won't have that). What is your preference?

Also I am ok with the letter for termination. Not real familiar with process with feds but thought we should put the dates we had conversations with them and thanking them as smooth transition and provided us with TA on closing out documents. Otherwise looks like we just terminated. Thoughts?

Hi Julie,

Attached are the draft termination letter and first draft of the final report of IFPN. Also attached are the framework guidelines CMS provided after our phone call and the termination documents IME used for the Marketplace Choice demonstration waiver (CMS referenced this document in the call too).

Amela has looked over the drafts of the termination letter and final report and did not have any comments or concerns.

CMS has requested the termination letter. When finalized, should we send the termination letter and final report and let CMS know that the 2016 and partial 2017 annual reports will be sent when they

are finalized? Or wait and send the termination letter, final report and 2016 annual report at the end of this month?

Thank you,  
Kelly

Re: Iowa Family Planning Network §1115 Demonstration Waiver Termination (Project #11-W-00188/7)

Dear Ms. Moore:

Please find the attached termination application for the Iowa Family Planning Network §1115 Demonstration Waiver.

The Iowa Family Planning Network Demonstration was implemented on February 1, 2006 to provide limited Medicaid coverage for family planning services.

In May 2017, state legislation passed mandating the Iowa Department of Human Services to discontinue the Iowa Family Planning Network program effective July 1, 2017, and establish a state family planning services program. On July 1, 2017, the department implemented the Iowa Family Planning Program. All members receiving Iowa Family Planning Network were transitioned to the Iowa Family Planning Program. Because the Iowa Family Planning Network program has been discontinued, the State is seeking to terminate the Demonstration Waiver.

We are appreciative of all staff of the Centers for Medicare and Medicaid Services who have worked on this demonstration and contributed to the success of the Iowa Family Planning Network program.

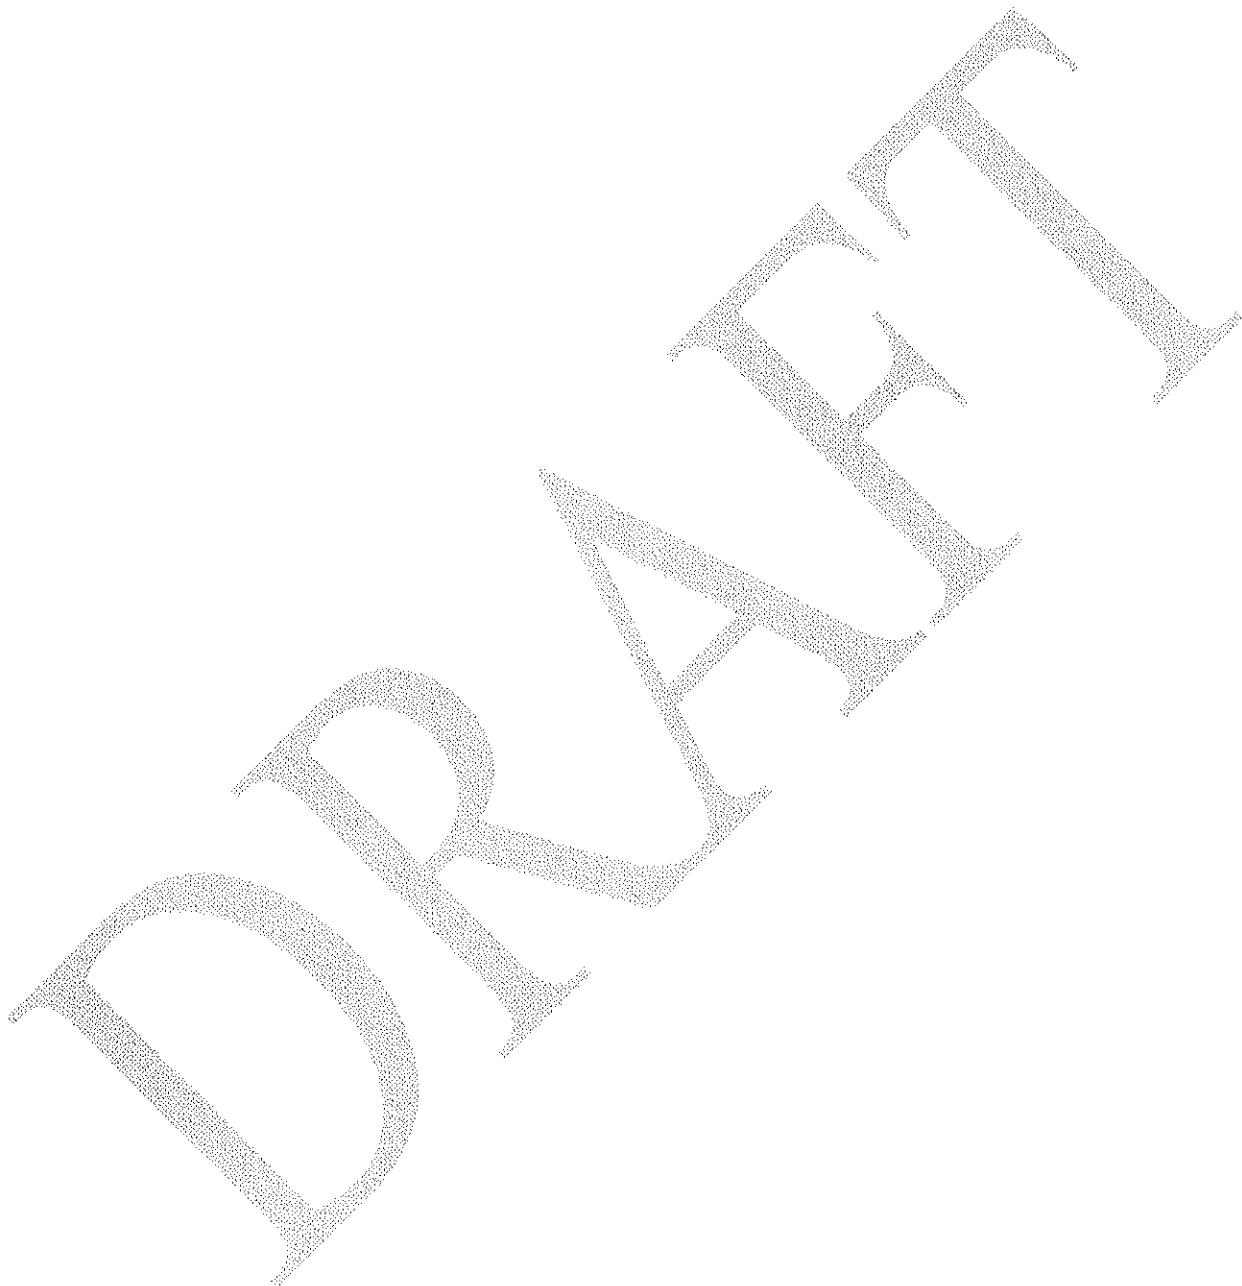

Sincerely,

Mikki Stier, MSHA, FACHE  
Medicaid Director

MS/kl

Enclosure: Iowa Family Planning Network §1115 Demonstration Waiver Termination (Project #11-W-00188/7)

**Section 1115 Demonstration Termination**

**Iowa Family Planning Network  
Project #11 -W-00 188/7**

**Final Report**

**State of Iowa  
Department of Human Services**

**October, 2017**

## **Section I – Executive Summary**

On January 10, 2006, Iowa received approval for the §1115 Family Planning Demonstration Waiver (Project #11 -W-00 188/7) from the Centers for Medicare and Medicaid Services (CMS). On February 1, 2006, Iowa implemented the Iowa Family Planning Network (IFPN) program to provide access to family planning and family planning related services.

Most recently, the IFPN program provided family planning services to men and women, under the age of 55, who are not otherwise enrolled in Medicaid and have countable income of no more than 300 percent of the Federal Poverty Level (FPL). Women losing Medicaid pregnancy coverage at the conclusion of the 60-day postpartum period were systematically enrolled in the IFPN program.

Annual reports of the demonstration, completed by the University of Iowa Public Policy Center, have confirmed the success of the Iowa Family Planning Program. Recent reports show more than 80,000 women have accessed family planning services through the IFPN waiver demonstration and repeat birth rates for women accessing IFPN services have dropped for most age groups. The largest decrease was among teens. Additionally, conservative estimates of net Medicaid savings are over \$265 million from this demonstration.

## Section II – History

In May 2004, legislation under Iowa Senate File 2298 was passed, requiring the department to request a waiver from CMS that allowed a guaranteed 12 month period of eligibility for family planning services to women who received Medicaid when a pregnancy ended as well as women who are at least 13 years of age but less than 45 years of age with income at or below 200 percent of the FPL.

In January 2006, CMS approved Iowa's initial request for the Iowa Family Planning Demonstration Waiver for a period of 5 years. In February 2006, Iowa implemented the IFPN program. The program provided coverage to women, aged 12-44, who are not otherwise enrolled in Medicaid (other than IowaCare), State Children's Health Insurance Program (SCHIP) or other coverage that includes family planning services. These women must also have countable income at or below 200 percent of the FPL or have lost Medicaid pregnancy coverage within the last year, at the conclusion of their 60-day postpartum period.

In 2010, legislation under Iowa House File 2526 was passed, requiring the department to renew the demonstration waiver and expand eligibility criteria for the IFPN program. The expanded criteria included coverage for men, increasing the age limit to 54, increasing the income limit to 300 percent FPL, and allowing coverage for individuals that are uninsured or have health insurance coverage that does not include coverage for benefits provided under IFPN. After receiving CMS approval, these changes along with a 3 year renewal of the IFPN demonstration waiver, were implemented effective December 29, 2011. In 2011, as part of the renewal process, the department received several short-term, temporary extensions to continue operating the IFPN program while the extension renewal waiver was considered.

Beginning January 1, 2014, the IFPN demonstration waiver was extended an additional 3 years. The program continued to provide family planning and family planning-related services to individuals (men and women) aged 12 through 54, who are not otherwise enrolled in Medicaid and have family income at or below 300 percent FPL. Women losing Medicaid pregnancy coverage at the conclusion of 60 days postpartum continued to be systematically enrolled in IFPN.

Most recently, beginning January 1, 2017, the IFPN demonstration waiver was renewed for an additional 3 years following the same eligibility criteria from the 2014 renewal.

### **Section III – Termination**

In May 2017, legislation under Iowa House File 653 was passed, mandating the Department of Human Services to discontinue the Medicaid Family Planning Network Waiver effective July 1, 2017 and establish a state family planning services program. The legislation required the state family planning services program replicate the eligibility requirements and other provisions of the IFPN program.

On July 1, 2017, the department implemented the state Family Planning Program (FPP). This program provides family planning and family planning-related services to individuals (men and women) aged 12 through 54, who are not otherwise enrolled in Medicaid and have family income at or below 300 percent FPL. Women losing Medicaid pregnancy coverage at the conclusion of 60 days postpartum are systematically enrolled in the FPP.

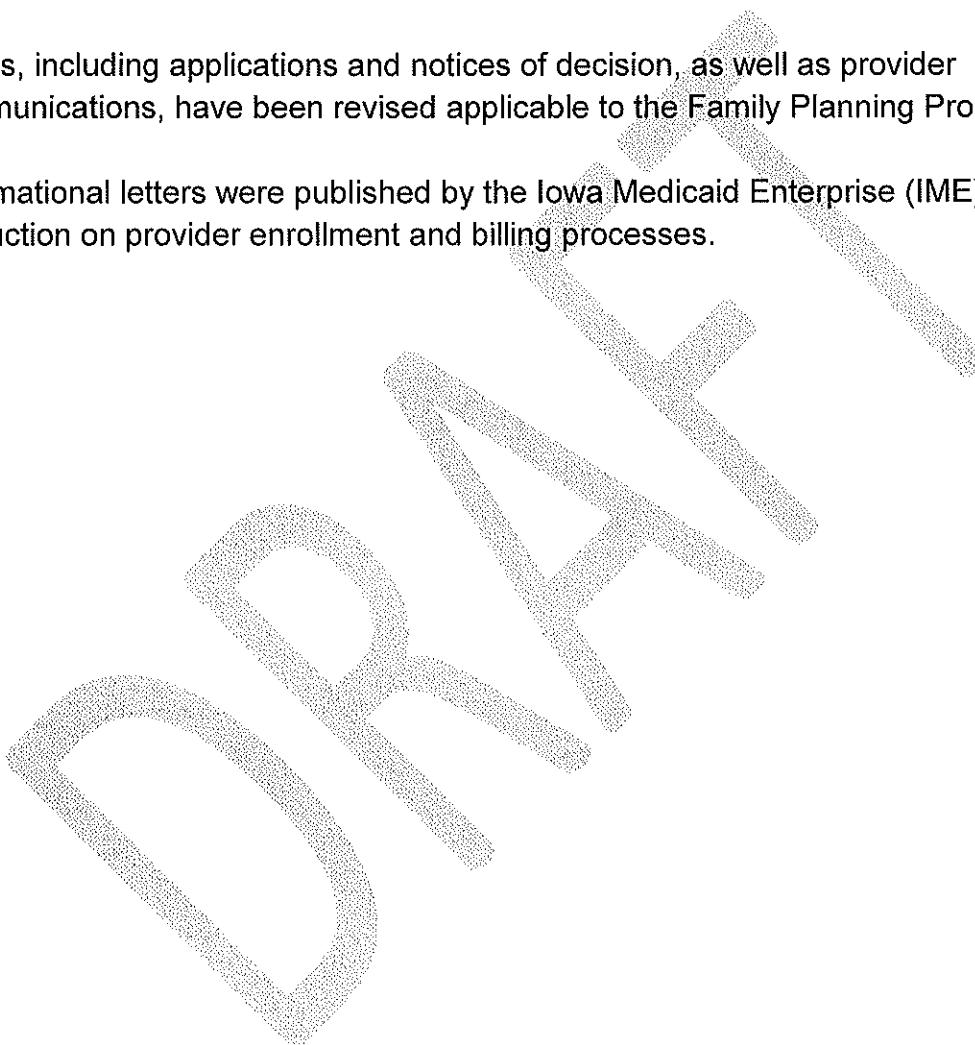

The department is not receiving federal financial participation for expenditures under this program. State legislation also requires the distribution of FPP funds are not made to any entity that performs abortions or that maintains or operates a facility where abortions are performed.

## **Section IV – Transition and Phase Out**

All individuals enrolled in IFPN as of June 30, 2017 were systematically and seamlessly enrolled in the FPP. Each member received a Notice of Decision (NOD) explaining the program transition, including a web address to access the list of participating providers, and proof of coverage for FPP. Each NOD also included member appeal rights. Eligibility determinations for FPP began with applications received on or after July 1, 2017.

Forms, including applications and notices of decision, as well as provider communications, have been revised applicable to the Family Planning Program.

Informational letters were published by the Iowa Medicaid Enterprise (IME), giving instruction on provider enrollment and billing processes.

## CENTERS FOR MEDICARE AND MEDICAID SERVICES

### 1115 Final Report Framework

The final report of your demonstration as required by the Special Terms and Conditions (STC) should provide a comprehensive presentation of all key components of the demonstration, from planning, evaluation design, implementation, interim evaluation findings and transition. The report will be available to the public on the State and CMS web site. The report should include, at a minimum, the following components.

#### I. Executive Summary

- A summary of the demonstration, including the principal findings, conclusions, lessons learned, and recommendations.

#### II. Introduction

- Describe briefly the intent of the demonstration.

#### III. General Background

- Describe eligibility, enrollment, delivery system, and cost sharing prior to the demonstration;
- Summarize history (what led to requesting the demonstration), including any legislative background; and
- Describe the modifications to eligibility, enrollment, delivery system, and cost sharing that were proposed for the demonstrations, and the waivers that were necessary to implement the changes.

#### IV. Implementation of the Demonstration

- Describe both the pre-implementation and implementation phases of the demonstration, and discuss any significant problems that arose and how they were addressed; and
- Provide discussion, as appropriate, how providers and beneficiaries were recruited for the demonstration.

#### V. Operationalizing the Demonstration – Discuss the reasons for what happened in the demonstration, both in terms of its successes and achievements and in terms of its limitations and shortcomings.

- Operational impact of each waiver - (e.g. If a waiver of cost sharing was approved, the report should include an operational assessment of implementing, operating, and monitoring the waiver. Note: An impact assessment of the same cost sharing waiver on beneficiaries, providers, and health plans is addressed below);
- Describe the operational/policy developments and issues encountered;
- *Successes*
  - Describe the successes, achievements, and positive outcomes of the demonstration.
  - Describe innovative activities and/or promising practices that were implemented.
- *Midcourse changes*

- Describe the challenges and problems, barriers, limitations, undesired outcomes encountered and how each issue was addressed;
- Discuss the extent to which the problems which occurred in the demonstration were attributable to how the demonstration was implemented, in terms of delays and deficiencies in marketing / outreach, the enrollment process, and administration.
- Explain why some eligible individuals, healthcare providers, and employers did not participate in the demonstration.
- Describe court challenges, outcomes, and impacts; and
- Provide the rationale for amendments and other significant changes.
- *Opportunities for Improvement*
  - Describe any remaining challenges, and opportunities for improvement in the demonstration; and
  - Describe any external problems caused by the demonstration.

## **VI. Transition Plan**

- Provide a description of how coverage for each population under the demonstration was concluded - (whether through a transition to traditional Medicaid (without waivers), to an expanded Medicaid with an Alternate Benefit Plan (provide a table comparing the newly provided benefits to traditional Medicaid and to demonstration benefits), to coverage through the FFM, to other coverage/programs (please describe), or to being uninsured.

## **VII. Impacts of the Demonstration**

- A. Beneficiary Impact** – Describe the impact of the demonstration on beneficiaries in terms of their participation and their utilization of healthcare services; their physical and mental health; their levels of physical, mental, and social functioning; and employment indicators
  - Who was enrolled in each Demonstration Group;
  - Enrollment numbers (by Demonstration Group) charted over time;
  - Beneficiary issues (types of complaints or problems identified; trends; resolution of complaints and any actions taken to prevent other occurrences);
  - When changes occurred in the demonstration, describe the change and the efforts to minimize the impact on enrolled beneficiaries (e.g., transition planning, grandfathering); and
  - Special Populations-discuss as appropriate any special populations, such as Native Americans.
- B. Utilization and Costs** – Describe the impact of the demonstration on increased access to health services or to not covering certain kinds of healthcare services. Include a quantitative description of the impact on the amount and distribution of costs in the Medicaid program as a whole and in the healthcare system as a whole, and the shifting of the incidence of costs between and within the private and public sectors, in terms of who bore those costs and uncompensated care;
  - Utilization and cost data and trends over time;
  - Describe any limitations in the data (if encounter data is reported, describe the accuracy and completeness of the data);

- Impact of any changes (e.g., utilization/over-utilization, access, unit pricing, provider organization); and
- Programmatic and medically necessary changes implemented by the state that changed utilization patterns and/or costs.

**C. Cost Sharing** – Describe the impact that changes in cost sharing (or other changes tied to the provision of health services) had on access to and the provision of benefits, and where possible link this to any shifting in the incidence of costs between and within the private and public sectors, in terms of who bore those costs and uncompensated care.

- Variations from state plan;
- Changes that occurred during the demonstration; and
- Impact of any changes (access, utilization).

**D. Delivery System Impacts** – Describe the impact on the delivery system(s), the amount and distribution of costs in the healthcare system as a whole, and the shifting of the incidence of costs between and within the private and public sectors, in terms of who bore those costs and uncompensated care;

- Providers – working with and monitoring providers (e.g., Delivery System Reform outcomes, FQHC/RHC - role and impact);
- Health Plans – working with and monitoring plans; and
- Administrative performance improvement focus(es) and changes over time.

**E. Coverage and access:**

- Describe the rates of coverage/uninsured (e.g., Private, Medicare, Medicaid, Other coverage (identified), and Uninsured):
  - a. Prior to the demonstration;
  - b. At key points and at least annually during the demonstration; and
  - c. At the end of the demonstration.
- Describe the impact on other access issues:
  - a. Prior to the demonstration;
  - b. At key points and at least annually during the demonstration; and
  - c. At the end of the demonstration.

**F. Quality** – Describe the impact of the demonstration on the quality of care delivery.

- Describe Quality Assurance and monitoring activities during the demonstration;
- Describe health outcomes performance improvement focus(es) and changes over time;
- Provide summary results of quality measures assessed over time, and identify trends. This should include health plan quality measures, beneficiary and provider surveys; and
- Where standard measures such as CMS Core Measure Sets, HEDIS, and CAHPS are utilized, compare results to national trends or appropriate comparable state.

**G. Other Influences**

- Describe any actions and the subsequent impact on the demonstration by:

- a. Legislature;
- b. Advocates and other stakeholders;
- c. Courts; and
- d. Other (environmental, economic, etc.).
- Whether other programmatic goals set by the state were met, such as reducing the number and rate of uninsured, improving the quality of care, increasing the use of value-based purchasing/pay-for-performance reimbursement, operating within state budget constraints.

**VIII. Programmatic Outcomes and Findings-** Present quantitative measures of the degrees to which:

- The purposes, aims, objectives, goals, and quantified performance targets of the demonstration were met; and
- To the extent possible, isolate and describe measurements of the relative effectiveness of the major interventions/changes in the demonstration component measures in achieving the objectives, goals, and performance targets of the demonstration.

**IX. Budget Neutrality and Cost Efficiencies Findings**

**A. Budget Neutrality** – Provide the following budget neutrality information:

- Actual expenditures to determine the budget neutrality (based on claims paid as of a specified date). Present the calculated budget neutrality for each year of the demonstration, and on a cumulative basis.
- Estimated final budget neutrality [Note: This section refers to the two-year timely filing period. For example, if the demonstration ended on 12/31/13, then the state should provide final estimates for anticipated claims to be paid before 1/1/16 for dates of service before 1/1/14.]
- Expenditure estimates for the demonstration based on historical data
- Methodology for determining expenditure estimates
- (Note: For temporary extension periods, use PMPM and trend rates from the last formal renewal)

**B. Cost Efficiencies**

- Determine the final estimated costs of providing health services under the demonstration by population and explain the methodology used. (Use a graph to present this information on an annual basis).
- For each year of the demonstration, present a comparison to the PMPM cost for coverage for each demonstration population to the actual (not the budget neutrality projected) PMPM cost for coverage under full Medicaid of a similar population for the same time period. Provide a table comparing the PMPM cost of the demonstration, the comparable cost under Medicaid, and the PMPM used for budget neutrality for each population, and then weight the PMPMs by population size to compare the final estimated cost of the demonstration, to the estimated cost under full Medicaid, to the hypothesized cost of the demonstration

as determined by the budget neutrality calculations. For each step, provide an explanation for the variances.

**X. Recommendations** - Provide specific recommendations for States that may be considering implementing similar projects.

**XI. Conclusions**

Provide a summary of the impact of the demonstration.

**Appendices**

**References**

Include citations for earlier reports generated during the demonstration, including annual reports and quality assurance reports. When available, include reference for public data files.

**Subject:** Jodi question and sharing response with Denise Wheeler so all on the same page

Question: Please see email below

Response: Services that are paid with FFP funds would need to have signed the attestation (provider) and be enrolled for the FPP. This operates the same as Medicaid, if a provider is not enrolled in the Medicaid program, they may still bill but will not able to receive payment.

Thanks,

Julie

Hi all:

I have been asked this question:

If a State Family Planning Program client receives family planning services from a FPP enrolled provider and that provider refers the client to a UnityPoint provider for follow up services that are allowed under the FPP (eg. Sterilization) will the Unity Point provider be paid?

Allowable FPP services such as colposcopies and sterilizations are often referred out to UnityPoint providers, especially sterilizations since Catholic Hospitals don't allow sterilizations to be performed.

Thanks

Jodi

Hi Denise,

I have included Jodi so she is also aware.

Question from Denise:

**Since the MCOs state they cannot guarantee confidentiality for Family Planning clients, can clients enrolled in full Medicaid that request confidentiality be placed on the FPP?**

Here is our response:

**State legislation mandated the Family Planning Program (FPP) replicate eligibility requirements and other provisions included in the Iowa Family Planning Network (IFPN) program. Therefore, individuals receiving Medicaid coverage are not eligible to enroll in the FPP.**

Thanks,  
Julie

To: [wrickma@dhs.state.ia.us](mailto:wrickma@dhs.state.ia.us), Julie Allison <[jalliso1@dhs.state.ia.us](mailto:jalliso1@dhs.state.ia.us)>, [jlovela@dhs.state.ia.us](mailto:jlovela@dhs.state.ia.us), "Denise.Wheeler@idph.iowa.gov" <[dwheeler@idph.state.ia.us](mailto:dwheeler@idph.state.ia.us)>

Hi all:

I have been asked this question:

If a State Family Planning Program client receives family planning services from a FPP enrolled provider and that provider refers the client to a UnityPoint provider for follow up services that are allowed under the FPP (eg. Sterilization) will the Unity Point provider be paid?

Allowable FPP services such as colposcopies and sterilizations are often referred out to UnityPoint providers, especially sterilizations since Catholic Hospitals don't allow sterilizations to be performed.

Thanks

Jodi

Ok, not sure if this is what you meant-

Services that are paid with FFP funds would need to have signed the attestation and be enrolled for the FPP. This operates the same as Medicaid, if a provider is not enrolled in the Medicaid program, they may still bill but will not able to receive payment.

Good evening,

I have been going over CMS' internal close-out documentation requirements and realized that for the official administrative record, CMS will need a letter from the state indicating it terminated the 1115 program effective 6/30/17. We also need this letter documenting the actual termination date so that CMS has the appropriate date to determine how long we keep this 1115 "active" in our expenditure system as states are allowed 2 years from the close of the last active quarter to submit claims that may come in later. Thank you.

Hi all:

I have been asked this question:

If a State Family Planning Program client receives family planning services from a FPP enrolled provider and that provider refers the client to a UnityPoint provider for follow up services that are allowed under the FPP (eg. Sterilization) will the Unity Point provider be paid?

Allowable FPP services such as colposcopies and sterilizations are often referred out to UnityPoint providers, especially sterilizations since Catholic Hospitals don't allow sterilizations to be performed.

Thanks

Jodi

Julie and I discussed this and thought that this could be the response.

Services that are paid with FFP funds would need to have signed the attestation and be enrolled for the FPP. This operates the same as Medicaid, if a provider is not enrolled in the Medicaid program, they are not able to receive payment.

We can discuss at the meeting tomorrow if you have further thoughts.

Julie,

I didn't think it was the time or place but I do have another FPP question from a contractor:

Since the MCOs state they cannot guarantee confidentiality for Family Planning clients, can clients enrolled in full Medicaid that request confidentiality be placed on the FPP?

This was not allowed under the IFPN but since this is not a CMS/IME product and confidentiality is not assured, they are asking....

Thank you.

**Subject:** Re: Another FPP Question

We also need to understand why MCOs are not able to guarantee confidentiality for an FPP client. If the confidentiality indicator is entered in the eligibility system, it also flows down to MMIS,

Julie,

I didn't think it was the time or place but I do have another FPP question from a contractor:

Since the MCOs state they cannot guarantee confidentiality for Family Planning clients, can clients enrolled in full Medicaid that request confidentiality be placed on the FPP?

This was not allowed under the IFPN but since this is not a CMS/IME product and confidentiality is not assured, they are asking....

Thank you.

Hi Ladies.

Julie A and I just met with the Public Health folks in preparation for th emeeting next week.  
We landed on a small issue and need your help to resolve.

PDH has and MOU for claims data. That MOU is Medicaid specific. They have worked with Stephanie Clark.  
In order to continue the business as usual thinking for this program we need to add a paragraph to give them  
data for this state based program.

Can Stephanie handle this update?

Also, Deb, I may be a bit late this friday as i have a meeting with Jerry....

Julie A please add anything I missed...

Thanks
